**MEMORANDUM**

TO: State Board of Education

FROM: Mike Flanagan, Chairman 

SUBJECT: Presentation on MI School Data

The MI School Data portal provides views of Michigan education data to help educators, parents, and community members make informed educational decisions, to help improve instruction, and to enable school systems to prepare a higher percentage of students to succeed in rigorous high school courses, college and careers. Over time, MI School Data will be expanded to provide more data, more reports, and more ways to access important information.

Staff from the Center for Educational Performance Information and the Michigan Department of Education will provide the Board with an overview of the portal. Board members are encouraged to explore the web site prior to the Board meeting at [www.MISchoolData.org](http://www.MISchoolData.org).
